

Bridge Condition

1 inch = 25 miles

Legend

Bridges

Overall Rating

- At least one component rated '3', Serious
- At least one component rated '4', Poor
- At least one component rated '5', Fair
- At least one component rated '6' or above, Satisfactory
- Not Applicable

Transportation

- Interstate Highway
- US Highway
- State Highway
- State Route

*Bridge Ratings for the purposes of the Regional Transportation Plan are determined by the condition of the three bridge components: deck, substructure, and superstructure. The lowest-rated component will be displayed for each bridge. For example a bridge rated as a '3' for deck, '4' for substructure, and '5' for superstructure will be displayed as a '3'.
